Scope 1 and 2 GHG emissions in Singapore in FY2018/19 (baseline year) has been restated due to a recalculation of tenant electricity consumption data at owned properties, electricity consumption at leased properties and fuel consumption for our operations. This results in an overall reduction in the Scope 1 and 2 GHG emissions for the baseline year; and SingPost's FY2022/23 reduction for Scope 1 and 2 is restated as 22% from FY2018/19 (baseline year).
